RE: Extension Request for Docket No. I/SE RAO 13/14-007 and Docket No. I/SE RAO 13/14-008 (for Properties in the Benicia Army Arsenal)

Dear Mr. Hermann:

The City of Benicia requests an extension to the Imminent and Substantial Endangerment Determination and Remedial Action Orders noted above. The City and its consultants have been working diligently on the project. As stated in letters from the attorneys for both the HAP and the BIA properties, the facts of the order as well as the parties name must be corrected. Until the correct parties are named, the City cannot state whether it intends to comply at this point. I understand amendments to the orders are forthcoming.

In the meantime, we have prepared a draft of a communications and coordination plan. The City has also asked Jim Durkin a geologist from ERS to be the City's geologist. Once all the appropriate parties are named, I believe we can make more progress on identifying a project engineer/geologist and finishing the communications and coordination plan.

Thank you for your assistance.

Very Truly Yours,

Heather C. Mc Laughlin  
City Attorney/Project Manager
