

PRESS RELEASE

Benicia Fire Department

Date: June 4, 2016
To: For Immediate Release
Contact: Division Chief – K.C. Smith
Benicia Fire Department, 707-746-4275
Subject: Structure Fire at 198 Incline Place

On Saturday, June 4th, 2016, at approximately 6:05 PM, the Benicia Fire Department responded to a reported structure fire at 198 Incline Place. Engine-11 arrived and found a kitchen fire which was extending between floors of the two-story residential structure. The homeowner, who was home at the time of the fire, made it outside safely and was uninjured. The fire was extinguished with first alarm resources. The cause was found to be an unattended pot on the stove. Unattended cooking fires continue to be one of the leading causes of house fires. The Benicia Fire Department reminds everyone that if you are using your cooktop, you should stay in the kitchen. There were no civilian or Fire Department injuries. The Benicia Fire Department was assisted with resources from the Vallejo and Fairfield Fire Departments. Benicia PD provided traffic control and Medic Ambulance provided a medical stand-by.
