

Level 1 Notification

January 7, 2021

NOTIFICATION OF INTERMITTENT FLARING (Planned):

The Benicia Fire Department has been notified by the Valero Benicia Refinery that beginning Thursday, January 7, 2021, they will be performing work on a processing unit which may result in visible, intermittent flaring that may occur for several days. The flares are designed as a necessary safety precaution and are managed in accordance with Valero's Flare Minimization Plan. There are no expected off-site impacts from this incident. Benicia Fire Department and Valero will continue to communicate with each other, Solano County, and Bay Area Air Quality Management District about any flaring activity during this period. Fire personnel will continue to monitor the situation and will update the public if conditions change.
