Katherine,

Thanks for sending me a copy of the Fuel Storage Tank Removal Addendum Report. I have taken a look at it and had several concerns. The first is shown on the attachment. The report states no known DOD use of solvents in bldg 161 however another document says a degreaser was used that contained solvents. This seems to prove otherwise. The second concern is the comment that the property was beneficially used. That is not the case. Please let me know when these revisions can be made. Thanks

Randy Potter
