Re: September 15, 2010 Letter from Department of Toxic
Substances Control to the City of Benicia and the State of
California Environmental Protection Agency Department
of Toxic Substances Control Imminent and Substantial
Endangerment Determination and Remedial Action Order

Dear Mr. O'Brien:

This will follow my November 16, 2012 letter. As you are aware, I have previously located copies of policies issued to the City of Benicia from 1973 to 1981; however, these policies do not contain any Commercial General Liability Coverage provisions and are not applicable and would not respond to the September 15, 2010 letter from the Department of Toxic Substances Control.

I was unable to locate any other policies issued to the City of Benicia, and my policy search is now complete. As previously requested, if you have any other policy information and/or copies of any other policies, please provide such to me, otherwise I will close my file within sixty (60) days.

We continue to fully reserve our rights and defenses. Neither this correspondence nor any future communication or investigation should be considered as an admission that coverage is available for this matter, a waiver of any rights or defenses available to us, whether under our contracts of insurance, at law or in equity, or as an expansion of any duty which may be subsequently acknowledged by us, if any.
