

Candidate Statement

Name: Jason Diavatis

Office: Mayor

Occupation: Small Business Owner

I am a second generation Benician who loves this city and has owned and operated several local businesses. I am running for Mayor because major issues have not been solved. As Mayor, I will focus on local issues that we can solve together for the benefit of all and not let national politics divide us.

Key Issues are: Reduce our water/sewer rates, which have doubled since 2016; Prioritize the repair and improvement of our deteriorating roads; Keep Benicia safe by investing in training and retention of our great community peace officers; Improving access to our City Council meetings with Live Streaming on social media.

Of course there are many other important civic matters to address such as expanding public art, Benicia tourism, better transparency, supporting community events, budget management and economic development. Most importantly, my desire is to provide a Mayorship that will be readily accessible to you. I want to listen and act on your concerns so we can work together to solve the needs of our wonderful city by the Strait.
