

## RAPID RESPONSE SERVICES FOR BUSINESSES- COVID- 19

### What is Rapid Response?

Rapid Response is a proactive, business-focused program designed to assist companies facing potential layoffs or business closures. Rapid Response services are tailored to each company based on the needs of the affected employees. These services are carried out by state and local workforce development agencies in partnership with the America's Job Center of California SM network.

### What Services are Available?

The COVID-19 outbreak continues to prompt many people to follow unprecedented social distancing recommendations. While this is the right thing to do to combat the virus, social distancing poses a serious threat to small businesses who rely on customers visiting their brick-and-mortar locations to stay afloat. Rapid Response teams will work with your company to minimize the disruptions associated with job losses on your business, workers, and community. Rapid Response teams will meet with you to discuss your needs and programs that can help avert layoffs, including:

- Work-sharing
- Unemployment Insurance
- Career counseling and job search assistance
- Resume and interviewing preparation
- Information about education and training opportunities

Small Business Development Center of Solano County has business support plans in place:

- SBA: Economic Injury Disaster Loan
- EDD For Business Owners
- EDD For Business Employees
- Business Interruption Insurance
