

Statement of Candidate for Member of City Council

City of Benicia

Trevor Macenski

Age: 37

Occupation: Environmental Planner

Education and Qualifications:

I'm running for Benicia City Council to strengthen the economic future of our city while maintaining fiscal responsibility; preserving our historic roots and quality of life; and ensuring community safety and education. I commit to representing Benicia residents with integrity, respect, and transparency that invites civic engagement.

As a Commissioner, I've served our community in various roles: the Planning Commission, Historic Preservation Review Commission, Soltrans Public Advisory Committee, and Refinery Community Advisory Panel. These roles have helped me develop extensive knowledge on important issues our City faces, and I work collaboratively with the public to solicit their input and perspectives. I'm humbled by endorsements I've received so far from Democrats, Republicans, and Independents, which include existing Council members, commissioners, local business owners, educators, and community leaders.

I'm a father, husband, coach, commissioner, planner, and collegiate educator running to be your voice at City Hall. Graduating from UC Davis with a B.S. in Environmental Policy Analysis and Planning and a M.S. from The Johns Hopkins University in Environmental Policy. I've dedicated myself to solving California's toughest challenges as an environmental and urban planner and I want to leverage that experience right here in Benicia. I hope to earn your vote. www.TrevorMac.com
