## Keep Saving Water

### Typical Household Water Use

## WATER CONSERVATION TIPS

ACTIVITY	EFFICIENT USE	CONSERVATION
Watering lawn and landscape (with sprinklers)	Install efficient rotary sprinkler nozzles and a weather-based "smart" sprinkler controller	Reduce each irrigation cycle by two minutes or eliminate one cycle per week
Washing car	Use a hose with an auto shut-off nozzle	Use a bucket and sponge or commercial carwash
Showering	 Install WaterSense-labeled showerheads and limit showers to 10 minutes or less	Limit showers to 5 minutes or less
Bathing	Fill bath half full	Fill bath to a minimal water level
Toilet flushing	 Install high-efficiency WaterSense-labeled toilets	Limit flushes and don't use toilets as a wastebasket
Automatic dishwasher	Install a water- and energy-efficient dishwasher	Wash full loads on light wash setting
Clothes washer	Install a high-efficiency clothes washer	Wash full loads on short or light cycle
Washing hands	 Install WaterSense-labeled faucet aerators and turn off water when soaping hands	Use hand sanitizer
